3.3. Contributing Guidelines

Example - 1

Contributing

We welcome contributions from the community! If you'd like to contribute to Cloud Native Gandhinagar Community, please follow these guidelines:

- 1. Check the issues tab for open tasks or create a new issue for your proposal.
- 2. Fork the repository to your GitHub account.
- 3. Clone your fork to your local machine: git clone https://github.com/oscf-io/Cloud-Native-Gandhinagar.git
- 4. Create a new branch for your contribution: git checkout -b feature/YourFeatureName
- 5. Make your changes and commit them with a clear and concise message.
- 6. Push your changes to your fork: git push origin feature/YourFeatureName
- 7. Create a pull request (PR) to the main repository's main branch.

Our maintainers will review your PR and provide feedback.

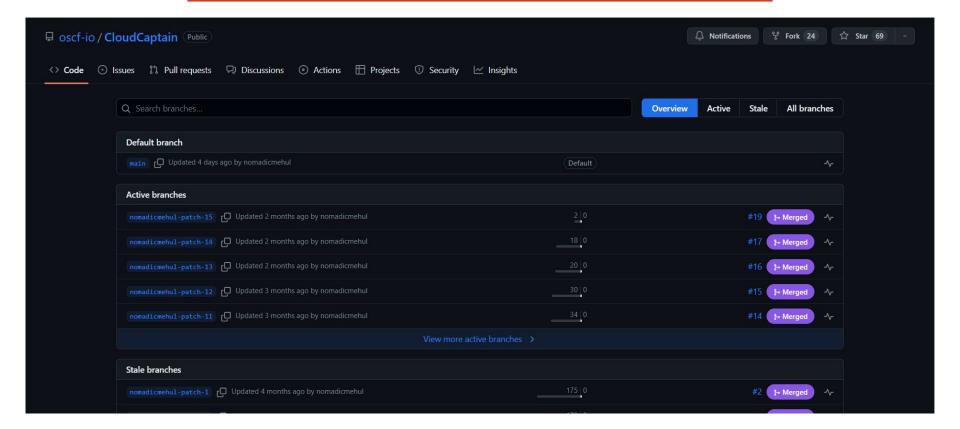

3.3. Contributing Guidelines

Example - 2

To get started Contributing:

- Fork this repository to your GitHub account.
- Clone the repository to your local machine using Git.
- Join our vibrant community on Telegram, [What's app] (https://chat.whatsapp.com /FY1t4tdDkdJ0eHumqfnUdG), and Discord for questions, idea sharing, and collaboration with fellow contributors.
- Contribute to the project by submitting pull requests, adding resources, or sharing learning materials.
- You can also fork this project and send a pull request to add a resources here.
